A CALL FOR ART

The Re-Art Gallery

Recycle Ann Arbor ReUse Center

The Re-Art Gallery is a gallery space at the ReUse Center warehouse, 2420 S. Industrial, Ann Arbor, Michigan, 48104. Over 17 artists participated in the Spring 09 opening show, The First Annual Rebuilding Materials Art Show, with 100 guests attending the Earth Day show reception.

This gallery setting offers a unique opportunity and exposure for the artist. Displayed work will be viewed and experienced by a diverse “reuse community” in a space adjacent to or within a warehouse inventory of orphaned and discarded objects. Over 6,000 individuals pass through the ReUse Center on a monthly basis.

A schedule of shows is available for the remaining months of 2009. These include shows featuring lawn and garden art, decorated doors, reclaimed local urban woods, and two additional rebuilding materials shows for the holiday period. The show schedule provides show months as well as set-up and tear down dates and times.

Artists’ exhibit sizes will vary with exhibitors’ media requirements. Spaces within the gallery include walls for hanging work, a glass showcase 10” x 24” shelves for smaller work, and gallery floor areas for floor installations.

Discarded materials, found objects, over-used goods, reclaimed resource materials, and most any other discovered materials, including those from the “end of the line” life cycle of commodity goods, will be at least 50% of the composition of the finished work.

The Re-Art Gallery has a developing Facebook page, which includes show posters, photos of submitted works, and postings for future gallery events. Supporters of community based galleries and the mission of the Re-Art Gallery can contribute by becoming and inviting others to become fans of the gallery. The gallery can benefit from other volunteer input, including flyer development, marketing assistance, and artists involvement.
